91     <h2>History</h2>
92     <p>
93         Their traditional history describes their origins in terms of waves of
94         migration that culminated in the arrival of a “great fleet” in the
95         14th century from Hawaiki, a mythical land usually identified as
96         Tahiti. This historical account provides the basis for traditional
97         Maori social organization and is generally supported by archaeological
98         discoveries, which have dated Maori arrival in New Zealand to about
99         1300 CE. Members of each tribe (iwi) recognized a common ancestry
100        (which might be traced through either or both parents) and common
101        allegiance to a chief or chiefs (ariki). Traditionally, at the
102        day-to-day level, the most important social groups were the hapuu
103        (subtribe), which was the primary landholding group and the one within
104        which marriage was preferred, and the whaanau, or extended family.
105        This social order was in force when Abel Tasman, the first European
106        contact, arrived off the coast of New Zealand in December 1642. He did
107        battle with a group of Maori on South Island and left the area largely
108        unexplored. In 1769–70 Captain James Cook circumnavigated the two
109        major islands and wrote about the intelligence of the Maori and the
110        suitability of New Zealand for colonization. Whalers, sealers, and

111     other Europeans seeking profit were initially welcomed by the Maori.
112     With the introduction of muskets, disease, Western agricultural
113     methods, and missionaries, Maori culture and social structure began to
114     disintegrate. By the late 1830s New Zealand had been joined to Europe,
115     and European settlers landed by the score.
